

Your Vision

Our Future

ITQAN

Introduction

Introduction

ITQAN Fingerprint has made a significant leap forward in technology growth.

Technology plays a vital role in our aspirations for local and global leadership.

Our commitment as a leader goes beyond the business. Our corporate social responsibilities are just as important to us as financial success. With all of our departments, we strive to move closer to our customers and improve the support we are offer. We understand our valuable role and our responsibilities as a key Law current System Agent and technical support staff.

ITQAN commitment to move closer to our customers with acquisition of several Technology fields with Information Technology, Networking solutions, Tele-Communications, Security Systems, Bio Metric and Door Access Systems. Through our line of business, as supplier, project Implementations and distributors for several of brand names.

ITQAN fingerprint started in 2005, under Name if ITQAN International then we changed Our Trade name after we focus on Time Attendance and Door Access systems with Brands (Fingertec, Virdi, Suprema, IDTECK, ZKS, and YLI) to new Trade name (ITQAN Fingerprint Trading Est.) in Kingdom of Saudi Arabia in Eastern Province operated by group of Certified and qualified Engineers, with professional Technicians in field of networking, communication, and security system.

We continue to look for additional opportunities in other KSA regions, then accordingly outside Saudi Arabia. ITQAN is a reliable supplier of high-quality products.

ITQAN

Introduction

ITQAN Fingerprint endeavors to develop one-to-one partnerships with our customers. Our dedicated representatives are assigned to specific accounts in order to better understand our customer's priorities and business goals and manage them with the attention and responsiveness they require. ITQAN Fingerprint delivers technical support from engineers who know and understand our customer's needs and concerns. We promise to regard every request, no matter how large or small, as valuable and important.

These days it's increasingly difficult today to cost-effectively manage an organization in the face of rapidly changing technology. Today's decisions have far reaching implications for any organization's ability to compete in tomorrow's advanced technology business environment. While it may be easy to find someone who will get their customer a computer at a bargain price, it's hard to find someone willing to be a long-term partner in discovering and implementing the solutions to an organization's ongoing information technology challenges. ITQAN Fingerprint will be your partner!

Introduction
